MEMORANDUM FOR BUREAU ENVIRONMENTAL EXECUTIVES

From: 
Ronald Deacon, Director
Facilities and Administrative
Services Staff
Justice Management Division

Subject: 2008 Energy and Environmental Management Award Winners

I am pleased to inform you of the winners of the Department of Justice Energy and Environmental Management Awards Program (EEMAP) for 2008. The judging was difficult and competitive, however, five projects, one from the Drug Enforcement Agency (DEA) and four from the Bureau of Prisons (BOP), demonstrated exceptional results that have helped further the advancement of Federal environmental stewardship. Three projects have been selected as EEMAP winners, they are as follows:

Recycling Category

- Safety Department, Federal Correctional Complex, Lompoc, CA (BOP)
- Thomas Kalista, Federal Correctional Institution, Fort Dix, NJ (BOP)

Environmental Management Systems (EMS)

- EMS Team, Aviation Division, Forth Worth, TX (DEA)

Given the outstanding nominations received this year, the Department has also chosen to award honorable mention to two projects:

Recycling Category

- Richard Daniels, Federal Correctional Institution, Big Spring, TX (BOP)
- Kevin Chapman, Federal Correctional Institution, Milan, MI (BOP)

The three EEMAP winning nominations listed above have been forwarded for consideration in the White House Closing the Circle Awards on behalf of the Department of Justice. Under separate cover, the details of an awards ceremony for the winning nominations will be sent to the BOP and DEA. Any questions regarding the awards program can be directed to Dawn Gunning on my staff at (202) 353-0761.
